en classic specification

[www.spaceforme.co.uk](http://www.spaceforme.co.uk)

The Classic Chair, manufactured by Spaceforme, offers the perfect solution for providing pupils with high performance chairs, which improve posture and comfort.

Investing in EN seating is an investment for the future, as the effects of well-designed educational environments on learning are widely acknowledged. The clean lines and ergonomic benefits of the EN series Classic Chair can play an important role in creating environments of which all stake holders can be proud.

The EN Series is the perfect solution for all classroom, school and educational seating environments; as well as for use in leisure and other public facilities.

## en classic

### **Durability**

Meets and exceeds the BS EN1729 parts 1 & 2

The Furniture Industry Research Association (FIRA) were so impressed with our chair, here is what they had to say:

This chair clearly considers all ergonomic factors for a modern classroom chair. In addition, the chair's aesthetics are designed whilst maintaining exceptional value for money. FIRA have recommended that the chair is put forward for the schools certification scheme - for products going beyond the standard BS EN1729

**Levent Caglar,**

Senior Ergonomist & Head of Ergonomist & Head of Ergonomics Unit, FIRA.

### **Expected life expectancy**

15 years manufacturer's warranty plus at the end of the product life the EN Classic can be fully recycled

### **Materials**

At Spaceforme we care for the environment and are always innovating to try and help reduce our impact on the world. The clever ribbed structure provides great strength and robustness whilst minimising its use of material.

### **Manufacture**

The plastic and metal are all sourced from the UK suppliers reducing the carbon footprint of overseas transport.

### **Delivery distances**

The EN Classic is designed and manufactured in the UK, all orders are assembled from our factory in North West England and delivered by vans across the UK.
